                JX-10 And MKS-70 Patches/Tones List
                    JX10_MKS70_Collection-D.zip
----------------------------------------------------------------
```

A collection of 64 Patches and 50 Tones.......

This list was compiled from a file upload by Glen Stegner. The description included with the original file was;

"Custom JX-10 patch bank, best sounds from CPJXWIN collection, plus custom patches, created by Glen Stegner."

The original filename was GScustom.syx, was proprietary and would only work with the CPJXWIN loader program for Windows. I have converted it to regular SysEx MIDI Bulk Dump format and renamed it.

The patch and tone file inside this ZIP is;

    GSCUSTOM-A.SYX

This is a regular SysEx MIDI Bulk Dump file and will work with either Mac or Windows. To load this M-64C patch bank into a JX-10 or MKS-70, use any generic SysEx loader program for Mac or Windows.

This file has been incorporated into a ZIP file called *JX10_MKS70_Collection-D.zip* and has recently been uploaded to the *"Patches"* page at the;

SUPER JX-10 and MKS-70 SYNTHESIZER HOMEPAGE

http://members.iquest.net/~twilight/superjx.html
